Slides for School Model

Test No. 1, SF-1 — Binocularity Both Eyes
To determine whether both eyes are being used together.

Test No. 2, SAS-2 — Acuity Right and Left Eye
Conventional Tumbling “E” symbol. Child states which way the “E” points in each square. Acuity levels of 20/20, 20/30, 20/40 and 20/50.

Test No. 3, SPS-3 — Heterophorias
Muscle imbalance — vertical and lateral — is tested at predetermined pass/fail levels. This test is administered first at far, then at near.

Test No. 4, SPCD-1 — Color Perception
Titmus Pseudo-Isochromatic plates reliably detect gross color anomalies, but do not classify the type of deficiency.

Test No. 5, SA-BRL-4 — Visual Acuity
Results calibrated at 20/20, 20/30, 20/40, 20/50, 20/70, 20/100, and 20/200. Tests can be administered binocularly or with either eye occluded.

Test No. 6, SLP-1 — Lateral Phoria
Measures Esophoria or Exophoria in 1 prism diopter steps.

Test No. 7, SVP-1 — Vertical Phoria
Measures right or left Hyperphorias in one-half prism diopter steps.

Test No. 8, SA-BRL-2A — Visual Acuity
Results calibrated at 20/20, 20/30, 20/40, 20/50, 20/70 and 20/100. Tests can be administered binocularly or with either eye occluded.

Improvements have been made to test slides to enhance viewing performance. Patent Pending.
